RAZING 300 HOUSES

THEIR ORIGINAL COST
TEN MILLION DOLLARS.

Are Being Torn Away to Afford Terminals for the Pennsylvania Railroad—Six Hundred Men and One Hundred Eighty Teams Are Clearing Away Debris, Supplemented With Steam Shovel That Lifts Seventy Tons at One Load.

New York, Dec. 9.—One of the worst wrecks of the many made here by the great building operations, is the site of the Pennsylvania railroad terminal, bounded by Seventh and Ninth avenues, and Thirty-first and Thirty-third streets.

The work of razing the 300 buildings on the property, which cost \$10,000,000, has been completed. But there is still much debris to be removed, and the district looks like a city that has been devastated by fire. The work of preparation for the building of the great terminal has been carried on with remarkable celerity.

On an average, 600 men and 180 teams have been employed daily in getting rid of the hundreds of well-built brick and stone structures that stood on the property. Three immense steam shovels, each capable of lifting 70 tons in one effort, and 50 steam drills capable of boring through 57 feet of solid rock in a day, are used in hollowing out the large space which will be used by acres of railroad tracks and underground structures of the terminal.

To Discuss Labor Unions.

Carlisle, Pa., Dec. 9.—The debate between Dickinson and Pennsylvania State colleges takes place here this evening, and it promises to be the event of the college year. The visiting team will support the affirmative and Dickinson the negative side of the question: "Resolved, That labor unions are inimical to the public welfare." The winning team will meet the winners of the Swarthmore-Franklin and Marshall contest.

For Next G. A. R. Encampment.

Chicago, Ill., Dec. 9.—Members of the executive committee of the Grand Army of the Republic and of the staff of the commander in chief, General Blackman of Boston, have gathered in this city preparatory to leaving for Denver, Col., to attend a meeting at which arrangements for the next national encampment will be discussed. The encampment will be held in Denver on dates to be selected at the coming meeting. The party will remain in the West about 10 days.

Warm felt slippers for Xmas presents, at Teutsch's Department Store.

PRESERVING A TOMB

WILL BE SATURATED
WITH HOT PARAFFIN.

The Staff is Not Affected by Acids, Alkalies, Water, or Atmospheric Gases—Is Applied Hot and Driven Into the Stone a Quarter of an Inch—One Treatment Expected to Suffice for a Hundred Years.

New York, Dec. 9.—In order to prevent further danger from leakage to the interior as well as the exterior of Grant's tomb, it has been decided to render the monument waterproof, and the work of preservation is already well under way. The system used is identical with that employed in saving the Obelisk in Central park. It consists in filling all the pores and interstices of the stone with paraffin, which is unaffected either by acids, by alkalies, by water or by the gases in the atmosphere.

The melting point of paraffin wax is about 140 degrees Fahrenheit, so the stone, to undergo the waterproofing, must be heated by hot compressed air to a temperature a little above this. The paraffin was then melted and sprayed over the surface, and this coating is finally driven by compressed air into the pores of the stone to a depth of about a quarter of an inch. It is estimated that by means of this treatment stone may be kept in a state of excellent preservation for a hundred years or more.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
F. J. CHENEY & CO., Toledo, O.
Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

Debate Canteen System.
Athens, Ga., Dec. 9.—In student circles much interest is manifested in the debate this evening between representatives of the University of Georgia and the University of the South. Sewanee has the affirmative and Georgia the negative side of the proposition to re-establish the canteen system in the United States army.

Pupils of the Albany, Or., central school are suspected of trying to burn the building the night of December 7. No arrests as yet, though there are liable to be.

...Owing to the Fact...

THAT THIS SEASON HAS BEEN VERY UNFAVORABLE TO THE SALE OF HEAVY CLOTHING AND OVERCOATS
